Implementation of enhanced Regulatory framework on Annual statutory filings

All Companies which have not filed their statutory annual filings for both form 20B and 23AC/23ACA since 2006 i.e. 2006-2007, 2007-2008 and 2008-2009 (i.e. has not done any of the six required filings) will not be allowed to file any other e-form with Ministry unless and until all such pending documents are filed. The status of such companies would be changed to "Dormant ". Each such company having the status as "Dormant" will have to file an application for normalising in eform-61 and once e-form 61 is approved by respective Registrar of Company, the company will be given a stipulated period of 21 days for filing all the due balance sheets and annual returns from the date of approval of form61. If all the due documents are not filed within this period, the company's status will again be reverted to "Dormant" and will have to follow the process of filing form 61 once again.
